PFPDO450T

Dymo 450 Turbo
Thermal Paper Pass Printer

This printer allows you to print adhesive and non-adhesive backed badges. They can be outfitted with a variety of colors or custom preprinted backgrounds. It uses thermal technology to print, which means no need for cartridges. The badges can be enhanced by using temp badge technology allowing them to expire at specified time periods. This is the standard visitor badge printer for the **FAST-PASS**® system.

FEATURES

- Direct thermal printing means no ribbons, toner or ink cartridges are needed.
- Includes standard print drivers.
- Easy to share over your Windows network.
- 300 dpi resolution provides laser-sharp labels in seconds. Make great quality badges with images, custom text and barcodes.
- PC compatible. Connects to a USB or Serial port.
- Prints Code 39, Code 128, Codabar, UPC A/E, EAN 8/13, EAN 128, ITF-14 and Interleaved 2 of 5 barcodes.
- Works with Windows 2000, XP Operating Systems, Vista x32

CONNECTION REQUIREMENTS

- USB Port
- 110/120 VAC
