FAST-PASS®
VISITOR MANAGEMENT

FREQUENTLY ASKED QUESTIONS

WWW.SISCOCORP.COM

Can the registration station be mobile?

Yes, the station can be kept on a cart and moved from one part of the facility to another provided that both locations have either wire or wireless networked connectivity (example: at the Emergency Depart at night and Materials Management during the day for vendors/contractors).

Can FAST-PASS® read driver's licenses from all states?

FAST-PASS® currently reads the information from 50 jurisdictions, Canadian driver's licenses, Military and Governments IDs. The IPIC camera can capture an image of any form of ID including passports, green cards and utility bills.

What if someone does not have their ID or their ID does not have any technology to be read?

FAST-PASS® is readily customizable allowing for your facility to create its own protocol. Also the information can be manually entered and an image taken of any supporting documents (i.e. school, university or residential ID).

Can anyone view the data collected?

No, FAST-PASS® has several layers of security, each is password protected and any data being transmitted is encrypted.

Can a deny entry be overridden?

FAST-PASS® is readily customizable allowing for your facility to create it's own protocol. By default an override exists and a badge can be printed. However, you can remove that option.

Can badges be made for special events?

Yes, in fact you can create a queue in which the names of the individuals are imported into the system and simply capture their photo and print a badge.

Can long term badges be made?

The duration of a badge can be either predetermined from 1 hour to 999 days or left variable to be assigned when the badge is printed.

Can a badge be printed in color?

Certainly FAST-PASS® universally accepts the printer you choose to use. A PVC card printer can be used as easily as a thermal printer. In fact, more than one badge printer can be used simultaneously allowing you to print a thermal badge for a normal visitor and then a PVC badge for a special event. The system will identify the printer to be used by the visitor group chosen.

Can FAST-PASS® replace my curent badging system?

Yes, FAST-PASS® can easily replace your existing employee badging system and adds extensive security features.

How long is the registration process?

15 seconds for an initial visitor and a return visitor is half of that.
