# FAST-PASS® VISITOR MANAGEMENT

SYSTEM OVERVIEW

VISITOR REGISTRATION

- Captures current photo of visitor
- Automated data entry from driver's license, government ID's and passports
- Validates identification and flags false or tampered ID's
- Generates instant notification of deny entries
- Stores visitor information for quick return processing
- Simple point and click operation for ease of use

AUTOMATED WATCH LIST & DENY ENTRY

- Cross reference external and internal watch lists
- Ability to link to external criminal databases
- Verify possible intruder with photo
- Deny access to disgruntled former employees
- Enforce restraining orders protecting employees and children

CUSTOM VISITOR, VENDOR & EMPLOYEE BADGES

- Prints badge with current photo of visitor in seconds
- Designates group (i.e. visitor, VIP, vendor or volunteer)
- Assigns destination (i.e. Mr. Smith, administration, cafeteria)
- Displays time and expiration date on pass
- Assigns associated passes (i.e. child, assets, laptop)
- Bar-coded for automated exit processing

PREDEFINED & CUSTOMIZABLE REPORTS

- Creates full audit trail; date, time & location
- Tracks volunteers' hours for recognition awards
- Reports on all deny entries
- Visitor reports by department or employee
- Customized reports for specific requirements
